and Schleiser's hit scored Wildes and Powers. After this hurried the Berlin sluggers retired in regular order. In the previous inning with none out and two on, Hunt fanned a pair, and a pop fly to Keefe ended up the dangerous situation for the Twins. Houghton occupied the mound the last three innings and twirled in his old time form.

Score making began for the Twins in the sixth, when they purloined the first tally on a pass and Keville's two base hurricane into center. The game was tied, and later put on the high shelf in the seventh. Since then by the Purington sacrifice by Keville, errors at first and short center Masterman and Purington over the rubber and settled the contest:

Bathers to be Protected at Gibson's Grove.
A community meeting was held Tuesday evening at the Norway Center church to devise ways and means to protect bathers at Gibson's Grove beach from the trouble which has dropped off into deep water.

The matter was discussed and, with the unanimous opinion that something permanent should be put around the place to keep beginners and those not acquainted with the danger away from that part of the beach.

A suggestion to raise money by subscription was left for a later meeting, or until definite plans for protection are completely worked out.

As follows: Albert P. Towne, Alfred L. Wyman and John P. Juddins. They will investigate the beach and consider all the suggestions relative to making the spot safe and the bathing and other methods which will be permanent and effective. This is a vital question to all interested in booming Norway and its resorts.

Twin Towns 5; Oxford 3

A sudden rally in the ninth gave Oxford three runs and blazed the way for clinching the score. With two gone Oxford found a narrow opening resulting from an error, a cluster of hits and some confusion hustled across triple tallies before the over was out.

The away team's advantage was maintained and close game. Hard hitting and some clever fielding made the

peppy battle good to look upon. League
t pulled off a startling play in de
nter near the race track fence when h
pped a long fly in the fourth, robbin
ormahlin of a homer and smotherin
veral runs for the Twins. Numerou

The Twins procured one run in the third on hits by Thormahlin and Louie McDonald's sacrifice. Another hit was fourth by White when his single followed by slathers put out by Masterman and Purington sent him over the rubber again in the fifth with two gone full of gas; went along when a poor throw from Smith to Peekham cut base Bissell off second while stealing, and scored. The crowd roared hard into left. Three more came home on the error and hit. Thormahlin bases on the error and hit. Thormahlin

Oxford remained whitewashed until the ninth, although good hitting put them within marking distance on numerous occasions. A great streak came to them in their last try. With two gone and the name in its last convulsion, and one run down on first, W. Needleman a pinch hit for, singled; Wheelock was hit by a pitched ball; a long drive into left field; Coulter scored the whole bunch. Smith

hooked by Purington after a long run
 slammed the doors on any further at-
 tempt to tie the score.

Excitement during the game was in-
 tense and rooters for both teams howled
 lustily when their favorite pulled out a
 good work. Fans from Auburn, West-
 morland, Hebron, Buckfield, Auburn, Lewi-
 s, Harrison and other adjoining towns
 made one of the largest crowds for the
 season.

As the series stands, Twin Towns have
 won two and Oxford one. Two games
 remain to be played.

Traffic officer Horace C. Kimball, Chas. F. Boober and Ernest W. Hutchins were stationed at crossings painted on the concrete road for pedestrians. Automobiles were allowed certain parking places, and the Main street curbing was reasonably clear.

Norway People Come Out as Frankly Here as Elsewhere

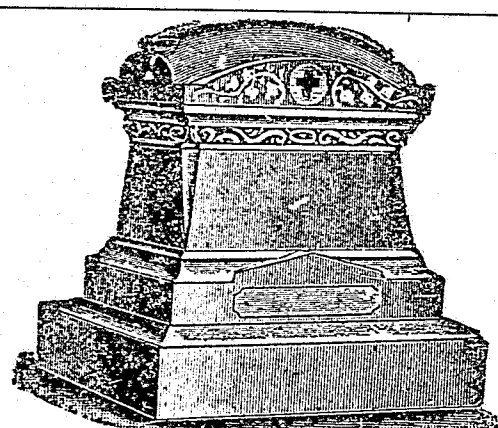

Norway people publicly recommend Doan's Kidney Pills. This paper is publishing Norway cases from week to week. It is the same everywhere. Home testimony in home papers. Doan's are praised in fifty thousand signed statements, published in 3000 communities. Norway people are no exception. Here's a Norway Statement.

M. W. Sampson, prop., boat transportation business, 19 Bridge St., says: "It has been some time since I have used Doan's Kidney Pills, but from past experience I can recommend them to anyone in need of a good, reliable kidney medicine. A cold settled in my kidneys and brought on attacks of backache. I was lame and unable to move any way. My kidneys didn't act right and I had dizzy spells. A friend who had used Doan's Kidney Pills with good results advised me to try them so I went to Stone's Drug Store and got three boxes. After I had finished taking them the trouble left me and I have been free from kidney disorder ever since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sampson had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

GREET THEM WITH A SMILE

Dear old Norway, my home for many years. When I think of the changes time has made, I cannot restrain my tears. In my youth, death with his sickle keen has taken them one by one. Still I am left, though older far, than many who are gone.

If unkind words should never be spoken, and only kind ones said, what a heaven on earth this world would be. One sweet poet has truly said, "It's the things we're left upon."

Not the deeds we have done, that give us a bit of a heart ache, at the setting of the sun. But God is love, and love is God, and He is our supply.

Let's have a bit of Heaven here, Not wait until by and by, Love rules the world so our great minds say, So let's greet our friends with a smile of love As we journey along here.

Paris Hill, Me. KATHIE A. SMALL.

 Treas.—T. Bardsley.

The scene on the fair grounds was a moving mass of color and a melody of voices, with an endless variety of things to eat and drink. The booths and tents had been arranged in a much better manner to care for the crowds, a second circular street for the shows and larger tents, of the many, leaving a wider driveway for autos or people on foot. The merry-go-round was busy, but the music accompaniment was not always in working order, although there was plenty of noise. Gay banners, balloons, bright colored flags of various kinds added their dash to the bright costumes of some of the attendants.

The only local dealer to have a display in the lower hall was Wales & Hamblen, who had two one-pipe furnaces and some farm machinery. The other places were used by men and women selling jewelry of all kinds, aluminum ware, dictionary, etc. Upstairs, a very attractive table of flowers, with a border of handmade grapes, of purple silk on real leaves, first attracted the eye. The grapes were made by Mrs. E. W. Bushby of Peabody, Mass., who kindly loaned them for the occasion through the suggestion of Charles Mead, one of the committee. Large flower pots of Japanese fire plant, with vases of flowers, made a very effective table. While the display of fancy work, etc., was small, there were some excellent pieces of crochet, yokes, table doilies, etc., sweaters, scarves, quilts, and other fancy articles. The number of rugs was large, especially some of the hooked rugs, in attractive designs, also braided in different shapes. A quilt with design in houses of red and green attracted much attention.

Mrs. Mary Knight showed a case of fall millinery, some of which were sold on the spot. A display of manual training work was interesting, also a group of water color and oil paintings, while a set of drawings by Mrs. Gladys Warren Sanders, while at the Art School in Boston, attracted much attention. A boat under full sail was conspicuous and a few curious and samples of cooking were exhibited. Maurice Libby had a collection of pictures which he has taken and which were most pleasing, some being local scenes.

The Women's Relief Corps was the only society to make an exhibit and had an excellent collection of handmade articles, also photographs of prominent soldiers.

A very few vegetables were shown. The Committee on the upper hall was: Charles Mead, Clara McKee, Mrs. F. Webb, and they made an excellent display of the articles brought. It is to be regretted that more do not bring exhibits, as there is always much interest.

There was an excellent exhibit of cattle, H. F. Lord & Son having a very large number and fine specimens of Hereford stock, also O. D. Roes, Nellie Roes, Douglas, H. M. Moxey, Jersey, Fred Emery, I. R. Barker showed sow with pigs; Robert Sanborn had an exhibit. H. F. Lord & Son and James Thomas had oxen, Austin and Lawrence, Brigham showed yoke of steer calves, Leslie and Elmer Thomas had 3 year old steers, and Norman Seitz, 2 year old steers. Elmer Thomas and C. R. Beck, Howard Morrison, Ed. Davis, Fred Hanson, exhibited colts, Mrs. W. H. Foster, mare and colt.

A tent of war relics from Flanders' Field, where a large collection of articles used in the world war was on exhibition. The principal interest centered about the relics, which were the most interesting ever held in Bridgton and the best to be seen in Maine this season, some noted horses being on the grounds. The entries were extremely large, about 85, and many visited the stables before the fair to see the races, from many famous stables.

The chief race of Wednesday was the 2:30 stake, purse \$1,000, trot. An immense crowd filled the grand stand and all the grounds in the vicinity and there was great excitement and many thrills, when Harmony, owned by H. T. Hayes, East Rochester, N. H., won the race, there being 4 heats. Coult, 2nd; Ann Churchill, 3rd; Addie Echo, 4th, quickest time: 2:16 1-4. Other races of the day were: 2:27 class, purse \$250, trot or pace, won by Little Isle, William Tell, 2nd, Engen Hall, 3rd, Princess Milda, 4th. 2:15 trot or pace, purse, \$800, won by Sappho, Valley Forge, 2nd, Tom Donahue, 3rd, Bonique, 4th.

Tuesday's races were won as follows: special trot, purse \$200, Peter C., Evan Williams winning two heats. 2:17, trot or pace, purse \$300, won by Red Russell, in 2:16 1-4; June Favers, 2nd, John Brown, 3rd, Tony G., 4th. 2:24 won by Mabel Long, Ragtime, 2nd.

The winner of the Thursday races: 2:18 stake, \$1,000 purse, Diamond Q.; 2:21 class, Three Bells.

The snappiest game ever held at the fair was enjoyed by an immense crowd of enthusiastic fans, who cheered every fine play, of which there were many. Twin Town team, Norway and South Paris, won over Kezar Falls, 5 to 3, purse \$150.

Woodman band furnished music for the three days. The aeroplanes did not put in an appearance, although the management has a contract with a company in New York.

MOORE'S NON LEAKABLE PEN

A MOORE PEN FOR EVERYBODY

Ready to write and safe to carry, absolutely non-leakable—fully guaranteed. The only fountain pen filled with ink at the factory and shipped, filled, by mail and express to all parts of the world.

MOORE'S FOUNTAIN PEN INK

Superior Quality of Fountain Pen Inks. Superior to other inks because of special process of aging to eliminate sediment. Compare this with any other ink on the market. Note its perfect flowing quality, freedom from sediment, and its strong, permanent color. Suitable for all makes of fountain pens.

Writes at first stroke. The pen point, when not in use, being immersed in ink, writes at the moment it touches paper without urging or agitation. The feed bar, which extends the length of the barrel, forms a continuous and direct conductor of ink to the feed spoon. No time is lost in coaxing the ink to flow, because this action is positive, the result is instantaneous.

NO DELAY IN STARTING
 NO INTERRUPTION IN USING
 NON-LEAKABLE

The principle which makes this pen non-leakable is the method of sealing the reservoir by a hard rubber cone. By the employment of a screw thread at the mouth of the barrel which engages another thread in the cap the pen is made bottle tight. It can be carried in any pocket, hand-bag or traveling case. When you put the stopper in a bottle and a cap to hold it in place, you know it cannot leak. This result expected by theory is proven in practice. The Moore Pen cannot leak, for it is corked, locked, sealed, always ready to write.

The Lure of BIRTH STONES

AUGUST

Queen Elizabeth gave the Earl of Essex the birthstone of August, a sardonyx, as a pledge of her friendship. When captured by the Earl of Essex, the Earl of Essex sent this ring to Elizabeth. By mistake the messenger gave the ring to Countess Nottingham, an enemy of the Earl, who did not deliver the sardonyx ring, and in consequence the third Earl was executed. Countess Nottingham, when dying, confessed this to Elizabeth, who shook her, saying, "God may forgive you, but I cannot."

THE U.S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

From the makers of U.S. Royal Cords to the users of Fabric Tires

"Giving to the fabric tire user fresh, live tires. Being made now. Being shipped now."

IN all of modern merchandising the biggest conundrum is the fabric tire situation.

Around 70% of all car owners use fabric tires.

Their instinct for *quality* is as strong and insistent as any one else's.

Why, then, are they offered such hodge-podge stocks of "discount tires," "odd lots," "seconds," "retreads" and other so-called bargains of uncertain origin?

Sooner or later the public always seeks out *quality*. As a matter of *self-protection*—if for no other reason. The out-and-out opinion in favor of U. S. Fabric Tires has spread more this year than it ever did.

People have gotten very close to the U. S. policy. Felt it. Benefited by it. And passed the word along.

It's a policy settled to one standard for *all* U. S. Tires. Whether fabrics or cords. Small sizes or large.

Giving to the *fabric* tire user *fresh, live tires*. Being made now. Being shipped now.

All the original U. S. *vitality* and *service* comes through when you buy a U. S. Fabric Tire.

"Usco," "Chain," "Nobby." Three different treads.

Built by the same brains, the same policy, the same quality ideals that have made U. S. Royal Cords the *standard* measure of tire worth.

Norton's orchestra furnished the excellent music while at intermission the famous Summit ice cream and cake was served at tables placed on the vine covered piazza. The next dance will be held, Aug. 18. There will be the same good floor and music and refreshments. There will also be a full moon!

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3 1/2 inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to \$13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years—four plies long staple fabric—extra gum between plies—heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

CENTER LOVELL

Center of Loveliness

Why should not this place become ever more a favored spot for the increasing number of sight-seers? Whatever be the way of approach, a unique view bursts upon the beholder as the smiling lake adds its inexpressible charm to the peaceful vale. Sheltered by the feathered folks' home, the rich and fragrant forests, spread cultivated meads and sequestered homes of industrious thrift, and wavy fields with ripening crops. The landscape is a joy to the eye, and a feast to thoughtful minds. It is not a rival to other beauties in far-famed Pine Tree State, but is a pearl of its own that crowns the untold treasures in its keeping. It is the testimony of multitudes who stop to view and wonder.

Filled with the old Phatqua Spirit of Fryeburg, a company of Bible students were gathered in that place last week. It happened that a cluster of friends to the movement in Center Lovell brought to these summer students the fact that "Center Lovell was on the map." In return a tentative motor party came to see the spot in nature; for the rest of the week it was followed daily by new ones. It is not often that "cars" stop here, "just for the view," as the little brown cottage "right next to the P. O." and usually "so quiet" came to be the object of daily auto visits, inquisitive minds began to ask "What is it for?" It is right that all should know, these visits are genuine tributes to the beauties of this landscape. We trust they will continue as knowledge of this "Center of Loveliness" spreads.

Camping Party A Success

The automobile camping party to the White Mountains last week included Mr. and Mrs. Grant Abbott, Mr. and Mrs. Frank Beck, Mr. and Mrs. Stephen B. Cummings, Stephen J. Cummings, all of Norway, and Mr. and Mrs. Moses P. Stiles of Portland.

They camped two nights at the foot of Mt. Washington and the men hiked to the summit over the road. They were in luck for the air was clear and the weather not uncomfortably cool. The return was through Franconia and Crawford Notches. They also spent some time at the Flume. At this point the party separated, Mr. and Mrs. Abbott starting for Upton, while the others returned home. The Abbotts motored through Bethlehem and stayed Friday night with their relatives, Mr. and Mrs. Orin Holman. Saturday they continued through Colebrook, N. H., and Dixfield Notch to Errol, N. H.

Sunday was spent with Charles Chase at Upton, near Mr. Abbott's boyhood home. The day was passed visiting places near the old Umbagog House, which was run by the late Enoch Abbott and the late Wm. I. Abbott, grandfather and father of Grant Abbott, for many years. Grant did a little casting for pickerel near the old Abbott Mill, but landed nothing. A sportsman from the old Lakeside Hotel following him with a fly, secured several large trout, a fish not seen in years so near the old mill flume. Mr. and Mrs. Abbott returned home, Monday.

Wireless Operators' Convention
Members of the Norway and South Paris Radio Club and others interested in wireless, are laying plans to attend the Second Annual Convention of Citizens' Wireless Operators of Northern New England to be held at Portland City Hall Auditorium, Saturday, Sept. 10.

An interesting program has been arranged. Beginning with a display of apparatus in the morning, the sessions continue until late at night with addresses, organ recitals, a banquet, and trips to points of interest.

Many of the local boys in the Radio Club have a complete prospectus of events and are hustling to secure a large representation from the Twin Towns.

David Smith of Auburn has been visiting his sister, Mrs. Agnes Snow Currier and his brother, W. H. D. Smith, the past two weeks. Mr. Smith lived in Norway some twenty years ago.

Dr. Leroy J. Frink of Providence, R. I., and his sister-in-law, Mrs. Adm. A. Keene of Bristol, N. H., who have been guests for the past week of Mr. and Mrs. Fred Lovejoy and family, have returned to their homes, going by way of Bartlett and Bristol, N. H.

Fred J. Cummings has grappling hooks and full equipment in his shed for use in case another drowning accident should occur. Entrance to the shed is on the side next to the schoolhouse.

Ruth Stiles who has been spending a vacation with her uncle, Wilbur Tucker, at Norway Lake and the Jones camp at Lake Keegan, East Stoneham, as the guest of the Misses Jones, has gone to Woodstock, N. H., her former home, to remain until September, when she will take up social service work in Philadelphia.

Her twin sister, Doris Stiles, graduated from Oberlin College, Ohio, and has a position in the schools at Lebanon, N. H. The Misses Stiles are granddaughters of the late Benjamin Tucker of Norway Lake.

Mr. and Mrs. Henry Thormahlen of Canada, who came here a week or so ago, returned to that place Monday. The mahlen came to pitch for the Twin Towns and showed his wares Saturday against Oxford. The manager of the team on which he formerly played, dropped quietly into town, offered more money and he quit Norway.

The Mid-summer Ball Thursday evening, August 18, at Norway Opera House promises to be a large event as it follows the baseball carnival, and a fitting climax for a day of real sport. Shaw's Jazz Orchestra will feature Elizabeth Klein, the popular pianist, and Harold Moore, violinist and vocal soloist. Snappy jazz melody is assured.

Mrs. Alice Marston is spending a few weeks with her sister, Mrs. Eunice E. Putnam, at South Paris, Norway.

George W. Richburg of Winchester, Mass., who has been visiting his sister, Mrs. Fred G. Field at Minot, was in town Saturday, calling on friends. Mr. Richburg and sister lived in town thirty years ago and attended school. He is now manager of a large grocery store at Newton, Mass. He said on entering the office, "I must run in and congratulate you on the fine streets in Norway. I thought I had reached the boulevard at home—they are great, and now the first question while calling on friends outside of town is, 'have you seen the new streets at Norway, they are fine.'" He suggested well labelling the roads leading to Norway at the junction of roads for a radius of 25 miles or more—the result will be worth the effort.

Paul F. Hosmer is substitute mail carrier at the post office. P. F. Stone, who has been substituting, is working inside in the absence of Helen Swan, who is ill.

Mr. and Mrs. John Woodman are visiting with relatives in Stoneham, Mass. Fannie Buck, district nurse at Milford, Mass., is visiting her mother, Mrs. Jessie E. Buck.

Albion L. Buck is spending the week in New York on business.

Mrs. Rebecca Dabell is the guest of Mr. and Mrs. D. F. Durell at Bethel.

The Nevess store property on Main street has been sold to Mrs. Ernest Holman of Portland, who acquired the W. E. Rice property, formerly the Freedland Howe residence adjoining. Louis Block, who carries on a clothing business, and the tenement on the second floor, will remain for the present. The transfer was made through the E. A. Strout Farm Agency. Eugene Andrews, local representative.

Mr. and Mrs. Frank Starbird have moved from Cottage street to Barrows street, South Paris, into the bungalow occupied until recently by Mrs. Leslie Griffin.

Livewood Flint, peacetime tamer from North Watford, was in town, Monday, with friends and suit cases, en route by auto to Atlantic City, Philadelphia and Washington, D. C. We understand the trip takes them through New York City and to a Convention of Animal dealers.

Lin says, "The Association destroying expenses has much to do with my running wild in these cities a couple of weeks, and leaving my beloved 'quilled pigs' at home to mourn and pine."

Mrs. Bertha Savage, who has been visiting her brother, Wm. E. Deconson and family, left Friday, for New York City to open the season with the Peerless Trio. They will play the Keith and allied circuits to the Pacific coast during the winter season.

WOMAN AVOIDS AN OPERATION

Hope Nearly Gone, but Lydia E. Pinkham's Vegetable Compound Saved Her

Star, N. C.—"My monthly spells gave me so much trouble, sometimes they would last two weeks. I was created by two doctors without relief and they both said I would have to have an operation. I had my trouble four years and was unable to do anything, and had given up all hope of ever getting any better. I read about your medicine in the try it. I have used Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Liver Pills for about seven months and now I am able to do my work. I shall never forget your medicine and you may publish this if you want to as it is true."—Mrs. J. F. HURSEY, Star, N. C.

Here is another woman who adds her testimony to the many whose letters we have already published, proving that Lydia E. Pinkham's Vegetable Compound often restores health to suffering women even after they have gone so far that an operation is deemed advisable. Therefore it will surely pay any woman who suffers from ailments peculiar to her sex to give this good old fashioned remedy a fair trial.

Wilson, resident unknown, in Lewiston in the County of Androscoggin and State of Maine on the eighteenth day of February, A. D. 1911, by Rabbi Carle duly authorized to solemnize marriages therein.

Big Barn Door Sketches

Meredith Centre, N. H.
In berry picking time.

When summer guests are half numerous.

I picked up a traveler in the road, recently, and on leaving he politely said: "Thank you. When dreams become realities, I'll do as much for you."

"Welcome to Our City!"—Maine roadside signs which told the traveler that: "You are now in the City of Laconia," have been removed. Whether they fell by violence or change of ideas in the Chamber of Commerce is unknown.

The small sign "Laconia," with an arrow pointing the way to the city is an improvement. These are placed at country crossroads and are useful.

All the tinware of the household is filled with either blueberries or blackberries and they are beginning to bring them into the barn to amuse me.

The new idea of cold-pack-canning such as you hear of at Grange meetings necessitates a good deal of conversation, and the word "sterilize" is used pretty often. I'd like to sterilize some of the neighbors' bare-foot children who are eating green apples in the yard. It would do 'em good!

Pine trees bear cones once in seven years and I'm glad of it. Last season, was the bearing year and every time the lawn is mowed the cones have to be picked up. They make excellent kindling wood, but we are overstocked. All the barrels and boxes are filled as well as many of the baskets which are supposed at this season of the year to hold green apples. I'm worrying over the storage capacity of the barn.

Mrs. Sue Noyes Sanborn is, like Frank Noyes, never happy unless in trouble. She sold her farm, last year, and with its going was supposed to pass all worry, fret and care. I find her, this season in great perplexity as to whether she better go to York Beach, Ellsworth or Denver, Colorado. Also in the extreme heights of happiness over the inability of her children to properly care for themselves and make dresses, sheets, pillow-cases, etc.

She was a Noyes before marriage, but not related to Mr. Noyes of Norway, even if they have similar characteristics. Both are worth while people in their community.

"Band Concert every Thursday evening," was the sign that induced Walter to go to Center Harbor of an evening and take the tribe along with him.

I greatly enjoyed seeing the people and the autos and the pompous ways of the musicians. They are not made of the same clay of other people. One horn was so large a staging was built round it so it could be operated by a little man of great wind power. I do not criticise the music. A multitude was there and the racket prolonged and fierce, and the blowing of auto horns was the applause liberally used. It added much to the din and confusion.

Good roads go to pieces quickly. A crushed rock tarvia filled road built between The Wiers and Meredith three years ago and has had little over two years of service, is badly rutted. May be by patching it will hold up a couple years more. This holds true of all roads. They are permanent only in name.

Last Tuesday was a day long to be remembered by Nancy. Her babies took their father's dinner to him for the first time. She watched them with loving care and anxiety as they trudged up the hill drawing the dinner in a Paris made express cart. The father was having a half-mile up the road from his home.

No church services last Sunday. Thunder, lightning and threatened rain was the excuse. Autos glided by as usual. In post office square, housed in a limousine, two lusty dames were busy churning gum and knitting, just as if it wasn't the Lord's Day. Wonder if they would have done the same in their own town and in sight of a church?

You listen to a painful recital of aches, disappointments and deaths in calling on friends after a lapse of ten months. I find it so.

The Barn Door opened to me ten days later than usual, this year. New contraptions in my absence have come in besides spider-webs. A potato cleaver fashioned after a coal sieve is conspicuous amid the accommodations of dust. The barn broom came and knitting, just as if it wasn't the Lord's Day. Wonder if they would have done the same in their own town and in sight of a church?

Fifty-three and seven tenths miles is the distance traversed going from the Barn Doors to New Hampton, Bristol, east side of Newfoundland Lake, Plymouth and back to the starting place. Four miles of bad road before getting to the Old Institution in New Hampton, and the balance is good. Some sections better than others. At New Hampton we looked over the State Hatchery and State Game Breeding Farm. The Dickerman fish ponds and water rights have been bought by the State and a hatchery on a large scale has been built. Five million brook trout were hatched the past season and are now being "grown."

There is an abundance of never failing cold water, 48 degrees, at our visit. The hatchery has a capacity of 20 million and is modern in all appointments. It is easily the best of any we have seen. The water comes from a boiling spring and the flow varies only a trifle during the year. It is ample and the temperature varying little during the year.

Harry E. Hubbard, who has had much experience in fish culture, is the superintendent. He showed us about and was enthusiastic over the lay-out. A large amount of spawn is taken from the large trout which live in the "big pond," pretty near to nature.

Harold Thayer, foreman at the Musgrove Printing House, was called on. This boy is a son of Thed. Thayer of South Paris and married a daughter of Anna Keene of Norway. He and the Keene family moved here some six years ago. Harold has left twice for a bigger field and larger salary, having gone to Manchester, N. H., and Springfield, Mass. for a short stay, but has returned and will probably become a permanent fixture in the Musgrove Printing which is one of the best in this section of the State, even if its big boss and owner is a woman.

Plymouth, N. H., is the home of restaurants and R. J. McLean of the Record. We have in years past referred to him as Farmer McLean, but he is now editor and the Mrs. is the farmer at her beautiful home two miles up river, out of the quick lunch district, where the poppies and roses bloom all the season.

Dick is making money, no doubt of it, as he is putting in a No. 8 inotype and already has a Miller automatic feeder and a Cleveland folder working to capacity, and the prices he gets well. I'll say nothing about it as he has passed estimates on the Porte, Salt Lake City, Franklin price list, which is claimed to

be fair and just to the producer and consumer. His "help," six in number, and he are overworked or at least seem to be whenever I call.

Judge O. A. Towne of Franklin has been a printer for more than half a century. He is not yet an old man, even though he recently retired by age limit from the bench of the Municipal court of his city.

I asked him the other day if he wasn't glad to be relieved from passing out fines, exacting penalties and settling family rows—which he has been doing for the past 15 years. He answered that in one sense he was and in another he wasn't.

Under the present prohibition he said there was little or no court business. It's not as it was in the days of license when each Monday morning and many times during the week there was a line of drunks to be cared for.

"In that chair where you are sitting," he said, "more than a hundred young men in anguish and bitter shame have promised to reform, and many of them have, and become good citizens. I got interested in the work and felt I was doing some good. That was the reason I held the office as long as I did to the neglect of many other personal matters. I may seem strange to you but it is a fact just the same. I can count perhaps not a hundred but pretty near that number of men who have reformed, through the leniency shown, the promise made and the interest I took in them."

I recall a few years back there was a pressing demand made on the Judge to be a candidate for the office of Governor of the State. So much so and so loud was it that he had to step on the plans of his friends and announce that he could not allow his name to be used as he had all the public duties he could attend to in his home town—the police court and his paper, the Transcript Journal.

What England's Experts Say About ESSEX

It is not at all remarkable that Essex owners give such unanimous praise to the great qualities of the car, when even foreign experts agree in enthusiastic terms that it excels any car of its price and class that the world offers.

"Absolutely the brightest, liveliest little engine I have ever found in an American car."—S. F. Edge in "The Autocar," London, Eng.

"Another of the five cars I used during the last few weeks was one I cannot help mentioning, the four-cylindered Essex, with an R. A. C. rating of 18.4 h. p. It is an American production with absolutely the brightest, liveliest little engine I have ever found in an American car.

In fact, this motor might really have had a Coatalen* or a Pomeroy* as its sponsor.

(*Respectively designers of two English

cars of higher price than any American cars built.)

"The price charged too, is very reasonable for what is given, by comparison with the prices of other cars."

"The ability of the Essex to climb hills on top-speed, and yet give one a comfortable 45 miles per hour with 4 people up, is unequalled in my experience of four-cylindered cars of the same engine-dimensions."

"A colossal revelation of the value Americans can offer at its price."—E. N. D. in "The Auto" of London, Eng.

.... "This Essex is a magnificent four-cylindered car, would be that at any price, and is a colossal revelation of the value Americans can offer at its price.

"I am not going to say that the Essex is the best value existent, because there are many compar-

atively new cars most of us have yet to try. But I don't know anything like it. . . .

"It is today one of the most remarkable examples of value for money the whole world of car-producing countries can offer, in the London market."

"Its transcontinental record is not merely a record—it's a miracle."—From "The Car," London, Eng.

trip but that was before the coming of gasoline.

I was surprised to learn that one of my neighbors about my own age has gone to live at the County Farm in preference to living in his son's family. He owns real estate and personal property but wants a home and companionship, which has been denied him at the old farm in these gasoline burning days.

The Barn Door opened to me ten days later than usual, this year. New contraptions in my absence have come in besides spider-webs. Hot?

You know how much easier it is for you to overheat after you have over-eaten.

Batteries are almost human.

The battery that overheats and puts you to a lot of trouble, due to warped or buckled plates, is the battery that has been allowed to over-charge.

There is a mighty simple remedy for overheating of batteries. If you haven't tried it you'll be surprised to find how well it works. Here it is:

They took in the Tercentenary at Plymouth saw the president, vice president and other notables; saw the wonderful pagoda; gazed at the famous rock in its iron setting, and were as one with the moving throng. NORWAY AND VICINITY

Not Elected Principal

At a meeting of the school board held in June, Albert C. Parker was elected principal for the Norway High school by a majority vote of the school committee for the coming school year. Another meeting of the school board was held Tuesday evening to discuss school matters and it was claimed that a principal must be recommended by the superintendent and this not being done, Mr. Parker is not elected principal of the high school. The public do not seem to be informed why he is not recommended and feel that some ought to be able to inform them.

Mr. Parker is a graduate of Bates College in the class of 1916 and was here as sub-master for two years and at the close of P. E. Hathaway term of service as principal, he was elected to the position which he has acceptably filled for three years, making five years he has been a teacher at the high school where he has been unusually well liked by pupils, parents and citizens. During his service in the World War his position was retained for him while he assumed after his discharge. So well liked is he by the town's people for his good work during the last school year that a popular subscription was taken which gave him an increase in salary beyond the amount the town paid.

During the present summer, Mr. Parker attended the summer school at the Columbia University taking a course in Administration of Secondary Schools and has recently returned to Norway.

Much regret is expressed by towns people and pupils in the unexpected announcement that he is not elected principal for the coming school year. Can't something be done to retain Mr. Parker as principal of Norway High school?
